Resources and References

The [USAID-NREL Partnership](#) can help your organization plan for grid modernization and cybersecurity:

Visit our website at:
https://resilient-energy.org/cybersecurity-resilience

Read the guidance document: Power Sector Cybersecurity Building Blocks:
https://www.nrel.gov/docs/fy21osti/79396.pdf

Reach out for (free!) direct technical assistance through the [Ask an Expert form.](#)

NREL provides publications, data, and tools on grid modernization and security through the following research areas:
- Renewable Energy Integration
- Grid Technologies and Systems
- Sensing and Predictive Analytics
- Power System Operations and Controls
- Power System Design and Studies
- Energy Security and Resilience

Visit NREL's grid website: https://www.nrel.gov/grid/

To learn about additional events and resources, sign up for the quarterly **[USAID-NREL Partnership Newsletter](#)**!

Presentations for utility:
- Board of directors
- Executives
- Technical staff
- Non-technical staff
- Regulators

New documents:
- Policy documents
- Governance
- Training recommendations

New tools for:
- Cybersecurity assessments
- Capacity-building
- Critical infrastructure security

One-on-one technical assistance:
Through the SUPER program, USAID and Deloitte can assist organizations in the Caribbean with their cyber needs. Reach out to abrillman@deloitte.com for more information.
